

Make a Caterpillar

Two straws
(Or pipe-cleaners)

An old egg box

Paint, pencils and
anything else you want
to colour it in!

1. Cut the egg box length ways (with the help of an adult)

2. Paint or colour it in bright colours and leave it to dry

3. Use a hole punch to make two holes on the top of its head. This is what the antennae will go into.

4. Put the straws or pipe cleaners through the holes to make the antennae

5. Draw on a face and you have your very own beautiful caterpillar!
