

MOTH DISCOVERY EVENING

What do you know about moths?

Join us for an evening social with moth expert Ian Roberts hosted by Friends of Westgate Parks. We will be using light traps to attract moths living in our parks and identifying what we find. This event is part of an exciting new project run by Butterfly Conservation - Kent's Magnificent Moths - which will aim to conserve some of Britain's rarest moths and show everyone how interesting and beautiful they really are!

When: Saturday 11th May, 8pm for 8.30 start

Where: Toddler's Cove Playground car park, Whitehall Cl, Canterbury, CT2 8BG (ring Lucia on 07901 701189 if you get stuck).

What: 8.30pm - 9ish: introduction to moths, identification and recording
9pm - 11ish: exploring what we can find in our moth light traps

How: please register your interest at lchmurova@butterfly-conservation.org.

Bring a torch / headtorch if you have one.

No toilet facilities on the site but a short walk to a pub.

Some moths we might see on the night:

Blood-vein Moth

Chinese Character

Brimstone Moth

Buff Ermine

Green Carpet
