University

### ‘Can We Save Our Rare Butterflies and Moths?’ Lancaster University Conference

Butterfly Conservation’s Cumbria and Lancashire branches have paired with Lancaster University to present a free conference on the threats to our rarest local butterflies and moths, key indicators of the health of our local environment, and how we can save them.

The event will include some outstanding speakers from outside the University including well known butterfly author Matthew Oates and author of the highly acclaimed 'Wild Fell' Lee Schofield, as well as speakers from Butterfly Conservation.

When: Saturday 29th October 2022, 9:00am - 5:15pm

Where: Lancaster University.

For further details, including how to book a place, please visit:
