

Volunteers needed for Devon Branch Butterfly Conservation

Our Events Volunteers help the butterflies and people on their doorstep. They help to connect people to their local wildlife, encouraging people to take action for butterflies and moths.

VOLUNTEER GUIDES: Would you like to share your love of butterflies and moths with others? Show off a local site to wildlife enthusiasts? We are seeking passionate individuals to lead guided walks or moth trapping events. You can choose when and where to lead an event and we can provide training and support.

EVENTS VOLUNTEERS: Represent the branch at local events while promoting Butterfly Conservation and its activities. Events vary from a bioblitz, to a county show, a village fete to a music festival. You will not be working on your own but with another volunteer member of Butterfly Conservation.
