88 Ent Gaz. 17:78

111 Ent. Gaz. 21:82 Requires confirmation - Withdrawn by R.I.L.

There are several 'records' made by Dr T.H. Salter from Cardiganshire (VC 46). The moths were apparently taken at about 2,500 feet. The specimens are now in the Welsh National Collection at Cardiff. Salter's determinations were not wholly reliable, but it would be worth you while to look at the specimens yourself, or get someone reliable to do so, just in case!

87, 92, 95 b. Skinner
78, 80 Buckham (Hist. Surv. Nats. Mus. Cl., 1992) Records withdrawn.
97 Parsons, 1983
